

[Time text]

Year group: 4 Mr O'Boyle, Mrs Lynch, Miss Laycock.

Term: Autumn 2 2021

Big question- *What is Water?*

Welcome back for the second half of the Autumn Term. Geography & Science are our drivers this half term, as we look at water and its uses and Exciting Electricity- what is it? How does it do that?

English: Reading skills, reading comprehension and reading for pleasure in year 4 are vitally important. This is why children will be expected to bring in their allocated reading book every Monday for return Wednesday.

Writing: Talk 4 Writing: The Canal – Non-Fiction Newspaper report – Poetry

Mathematics:

Area of maths: The four rules of maths: Addition, subtraction, multiplication and division.

Measurement: Length – Perimeter

Arithmetic: Daily Times Tables Challenges

Humanities (Geography)

Wonderful Water.

Why is water so valuable? Its use, from drinking to generating power.

Religious Education:

The Festivals of Light leading up to the Christian festival of Christmas.

PE:

P.E is on Tuesday afternoon. Children come to school dressed in their kit.

We will also have a fit in 5 session daily.

Science: Electricity.

What is it? How does it do that? What is the difference?

Practical, building a simple circuit.

Expressive arts (Music/ Art/ Design and Technology): Art skills and developing ideas. Building Structures

PSHCE / Languages: French.Portraits.
